## Profile

Junior AI-powered full-stack application developer with a growing foundation in front-end and back-end technologies, including HTML, CSS, JavaScript, and modern frameworks. Experienced in building responsive web applications and integrating APIs, with ongoing training in server-side development, databases, and AI-driven features. Currently expanding knowledge in developing intelligent, data-driven applications using emerging AI tools and full-stack technologies. Passionate about continuous learning, problem-solving, and building scalable, user-focused solutions that combine modern web development with artificial intelligence.

## Experience

### Full-stack App Developer Trainee | Evangadi TECH Bootcamp | Nov 2025 – Present

- Built full-stack web applications using **HTML, CSS, JavaScript, React, Node.js, and MySQL**
- Developed RESTful APIs using **Express.js** and integrated them with frontend applications
- Designed and managed databases, including creating tables, writing queries, and using joins
- Implemented CRUD operations (Create, Read, Update, Delete) for dynamic data handling
- Collaborated on projects using **Git and GitHub** for version control
- Debugged and optimized code for better performance and user experience
- Followed best practices for responsive design and cross-browser compatibility

## Education

**B.S. In Electrical and Computer Engineering | June 2016 | Debre Markos University, Ethiopia**

**Certificate In Ai Powered Full Stack Application Development | Nov 2025 - Present | Evangadi Tech, Maryland**

## Skills & Abilities

- HTML5, CSS3, JavaScript (ES6+)
- Responsive design (Mobile-first, Flexbox, Grid)
- DOM manipulation and event handling
- Basic React.js (components, props, state)
- Basic UI/UX principles and accessibility
- Bootstrap
- RESTful API integration and development
